

# MAXIMISING MACHINERY TO MEET CONSTRUCTION DEADLINES

Unplanned construction equipment downtime can destroy all hopes of meeting deadlines.

Yet **87%** of firms have experienced breakdowns in the last 3 years<sup>1</sup>.

To keep building projects on time and on budget, Shell's innovative lubricant solutions help ensure equipment is always performing at its best on site.

## TRANSMISSION SYSTEM

### SHELL SPIRAX GEAR OILS FOR:

- Prolonged component life
- High torque applications
- Superior anti-wear performance
- Fewer oil changes
- All-temperature, all-season performance

## GEARS

### SHELL GADUS GREASES FOR:

- Mechanical stability
- Oxidation control
- Water washout resistance
- Wear protection
- Long grease life

## DIESEL ENGINE

### SHELL RIMULA ENGINE OILS FOR:

- Improved combustion efficiency
- Increased power output
- Better fuel efficiency
- Reduced emissions
- Tackling higher temperatures

## HYDRAULICS

### SHELL TELLUS HYDRAULIC OILS FOR:

- Avoiding decrease in power and efficiency
- Prevention of deposit build-up
- Longer oil life
- Wear protection
- Protection of seals against stick-slip

**SHELL LUBRICANTS**  
TOGETHER ANYTHING IS POSSIBLE
